

## READER SURVEY

### Lawrence Livermore National Laboratory Environmental Report 2006

The purposes of this annual report are to record LLNL's compliance with environmental standards and requirements, describe LLNL's environmental protection and remediation programs, and present the results of environmental monitoring at the two LLNL sites—the Livermore site and Site 300.

We strive to provide information that is understandable and clear and that communicates effectively the Laboratory's efforts to protect human health and the environment. We also try to make the electronic version of the report and the website where it is posted (<http://www.llnl.gov/saer/>) as user friendly as possible. Your feedback on this survey will help us gauge how successful we have been.

Your input will be carefully considered.

I  have  do not have technical knowledge in the environmental sciences.

The technical level was  too high  too low  inconsistent  just right.

The background information was  sufficient  insufficient  inconsistent  just right.

The writing was  too wordy  inconsistent  just right.

The illustrations and tables were  helpful  difficult to understand.

I  did  did not use the glossary.

If yes, the glossary  had  did not have what I was looking for.

I  did  did not access the report from the website.

If yes, I found the website navigation tools to be  sufficient  insufficient.

If yes, I found the navigation tools in the report to be  sufficient  insufficient.

I read the report  on screen  as a printed copy  on screen and as a printed copy.

I  did  did not print any or all of the report.

If yes, I  did  did not have problems printing.
